6. Meeting MES update – [MES Co-chair](#)
  - a. Meeting tomorrow
  - b. Finalizing gaps needs challenges
7. MRPWG update – [MRPWG Co-chair](#)

Winter Meeting outcomes:

- Focus on five tasks centered around primarily mitigation planning, including maritime, PTHA, debris, and funding.
- Hold meetings on a monthly basis with mix of invited speakers and task planning.

April 6<sup>th</sup> meeting (first Thursday each month):

- Recognizing we hadn't spent much time talking about tsunami recovery planning, invited Laurie Johnson to discuss a tsunami recovery planning guide she is producing for California.
- Laurie is an internationally recognized urban planner specializing in disaster recovery and catastrophe risk management.
- She discussed that recovery management involves four different needs:
  1. Finding and managing money
  2. Increasing information flow
  3. Supporting collaborations
  4. Balancing time constraints – including actions that need immediate recovery, like maritime, to keep people in the area vs. recovery which should take more time, like rebuilding communities and relocating businesses and residential areas to safer areas.
- We had a good follow up discussion about where different states and territories are with their recovery planning.
- We'll develop a webpage on our MRPWG website devoted to recovery planning with Laurie's presentation and different resources.

Our next meeting will be March 4<sup>th</sup>. If you'd like to volunteer or you think of a good guest speaker, let MRPWG leaders know.

8. MMS update – MMS Co-chair
  - a. [Minutes from March](#)
9. WCS update – WCS Co-chair
  - a. Follow up on work plan, terms of reference
10. Island Caucus - IC Co-Chair
